22/06/2026

Dear Parents/ Carers,

With temperatures set to remain very high over the coming days, we will be making some adjustments to help keep the children safe and comfortable during this period.

Relaxed uniform:

Children may wear their PE kits, shorts or summer dresses whichever they feel most comfortable/ coolest in. They will not need a school sweatshirt or cardigan. Please bring sunhats, water bottles and apply sunscreen before school. If your child needs to reapply at lunchtime, please make sure that the sunscreen is in a named bottle and that they can apply it themselves. Can you also remind them that it is for their use only and not to be shared with friends. Please remember that our site had lots of steps therefore appropriate footwear is a must (no crocs, flipflops and unstrapped shoes).

Shade and Outdoor Activities:

We are fortunate to have the bifold doors and shaded balconies and we will make full use of these along with all the other shaded areas throughout the day. The temperature in Poppy class will be monitored as we know the old building can get quite warm. Physical activity will be limited throughout the week.

The children will be encouraged to drink plenty of water and reminded to stay out of the direct sunlight.

Please find guidance from gov.uk here: <https://www.gov.uk/guidance/beat-the-heat-advice-for-hot-weather>

As always, the safety and wellbeing of all our children and staff is our highest priority and as a result we will assess the situation on a daily basis and inform you as soon as possible if the situation changes.

Thank you for your continued support.

Yours sincerely,

Alison Pass

Headteacher
