

# Safer Internet Day 2022

We believe it is very important that the children remain safe online both in school and at home but to also have the opportunity to use and enjoy technology.

As part of our online safety initiative, we will be taking part in Safer Internet Day. This year the focus is 'All fun and games' which will explore respect and relationships online. The day will consist of a range of activities from creating a 'kinder internet spell' to sorting information into personal and 'safe to share'. The children will also have opportunities to use the computer resources we have in school such as the Chromebooks, floor robots, and action camera.

There will also be a parent workshop available online via STEM Learning. More details of this are to follow. In the meantime, please take a look at some of the helpful activities on the school website, under the Online Safety tab.

Tuesday 8th February
