

# Wootton Bassett Infants' School

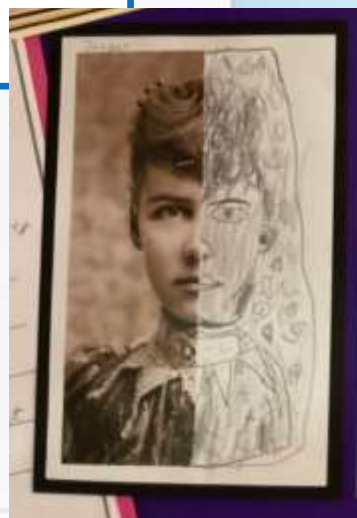

## PE, ART & DT CURRICULUM NEWSLETTER 2025

Throughout the school we have been doing lots of fabulous art work inspired by our topic work.

In Poppies and Daisies we have loved adding some more entries into our sketchbooks. We have particularly enjoyed making dragon eye patterns and drawing Ernest Shackleton's 'The Endurance' using pen and pencil.

The children in Bluebell and Buttercup's have been 'visiting' London. They have practised making and blending colours to make paintings inspired by the Great Fire of London. They have also used pen and ink to create beautiful London skylines. Can you spot the famous landmarks they have painted?

# DESIGN TECHNOLOGY

Last term the children in Buttercup and Bluebell Classes had a brilliant time designing and making their own teddy bears. Their designs were amazing and they were very proud of their final products.

In the Spring Term Buttercup and Bluebell Classes have designing and making bridges using only paper and tape. The children then tested their bridges and tried to improve and refine their designs.

Poppy and Daisy Class had great fun designing, making and testing a new protective suit for Humpty Dumpty. Some were more successful than others!

We were very lucky to see the sun at our Sports Day. We thought the children did an amazing job and thoroughly enjoyed their ice lollies which were kindly donated by Mr & Mrs Fergusson.
